LOCAL OFFICIALS INVITED TO ARMY AIR BASE MEET

FLIGHT MADE BY PAIR IN 18 HOURS

NEW YORK, Feb. 5.—UP—Capt. Frank Hawks and Oscar E. Grubb, his mechanic, who left Los Angeles, just before dinner time last night, were in New York in plenty of time to change their clothes, dine and go to a theater.

They had crossed the continent in their Lockheed airplane faster than any man before them had made the coast to coast journey and are the third pair of fliers to make the trip without stop.

Break Record

Hawks and Grubb took off from the Metropolitan airport at Los Angeles at 5:37:30 p. m. yesterday. It was just 31 seconds before 3 p. m. today when they brought their red and silver "air express" to the earth at Roosevelt field, Long Island. Their elapsed time was 18 hours, 21 minutes and 23 seconds.

FISHER GETS QUENTIN TERM

Willie Fisher, 18, known as the "million dollar fire boy" was sentenced to serve from one to 25 years for second degree arson by Superior Judge Homer R. Spence of Oakland yesterday. Fisher, since he was 14 years of age, is said to have caused between one and three million dollars damage to east bay counties and in San Jose and San Rafael.

He was found guilty of a charge of setting fire with oil and rags to the Park hotel in Alameda. The fire was discovered before it gained headway and Fisher, who was loitering around the vicinity, was identified by the landlady as having been seen in the hotel during the evening. He was arrested and confessed.

Following his conviction on other charges, Fisher was sentenced to the Sonoma State home but escaped last May. He was not apprehended until the night of the Park hotel fire on Aug. 2, 1928.

It is believed that Fisher is responsible for the fire that destroyed the old Fairmont school in El Cerrito.

SAN PABLO CUTS TAXES

Indirectly lowering its tax rates through a change in a settlement plan the San Pablo Sanitary district has been granted permission by the County Board of Supervisors to have County Assessor George O. Meese to act as assessor for the district. This change was made possible through the state act of 1923.

Through this change the district expects to cut down its assessed valuation from \$1,100,000 to \$1,000,000, thus resulting in a saving for the residents of the district.

Under the plan formerly pursued by the district an assessor was hired to fix the valuation of property in the district. As a result the cost of hiring the assessor was assessed against the residents of the district. Furthermore a large amount of the property in the district was assessed higher in order to meet the tax rate clause set by the state.

Under the new plan the money saved through disposing with a private assessor will be used by the district and the valuation of the property in the district will be brought down to the county level.

The new plan took effect Feb. 4. It was adopted at a session of the District on Feb. 1. M. G. Molitor is president of the district and Fritz Carlfield is secretary.

BID MAY BE MADE FOR FIELD

Excellent flying conditions which prevail around Richmond may give this city an opportunity to bid for the huge new air base which is planned on the Pacific coast by the United States Army.

Mayor Mattie A. Chandler, City Manager J. A. McVittie and P. M. Sanford president of the Richmond chamber of commerce have been invited to attend a conference tomorrow morning in San Francisco when the base will be discussed by civic leaders of the bay region.

Rolph Benes Call

Mayor James Rolph Jr. of San Francisco has issued the call for the session which it is hoped will be attended by Gen. W. E. Gillmore, assistant chief of the air service of the army, who is at present on the Pacific coast inspecting possible sites for the base.

General Gillmore is studying sites for the proposed relocation of the army air service now at Rickwood Field in San Diego. Congress is known to be favorable to the establishment of a base on the Pacific coast at which it will be possible to house dirigibles of the Los Angeles type.

That Richmond stands a good chance of obtaining the base is predicted here because of the excellent flying conditions which prevail in this section.

The fact that an appropriation was made for improvements at Crissy Field this year is also taken as an indication that the field will be moved in the near future to a more favorable location.

PAGE GRANTED SCHOOL WORK

L. L. Page of Richmond was awarded contract for the grading of the Fairmont school grounds at a bid of \$319.62 by the Richmond elementary school board last night.

It was at first believed by the board that the work would cost about \$4700 but all bids presented last night were below that figure.

Page will start work on the grounds in the near future. It is expected that when the work is finished the pupils of the Fairmont school will have a modern school playground.

Bids submitted last night were as follows: Arlis Knapp, \$3632; T. J. Immel, \$3909; S. O. Rogers, \$3885.80; Peres and Gatto, \$3543.20; Fred Myers, \$4354.65 and B. S. Salisbury, \$4607.22.

It is believed that it was the purpose of the man with the light to make motorists believe that he was in trouble and needed help. If they would stop, he would rob them.

All of the motorists speeded by the suspected "plant" without stopping.

SOLONS PASS CRUISER BILL

WASHINGTON, Feb. 5.—UP—The Navy bill authorizing construction of 15 new cruisers and one aircraft carrier at a total cost of \$271,000,000 passed the senate today by a vote of 88 to 12.

With the exception of one amendment recommending negotiation of treaties with leading maritime powers to regulate ocean traffic in wartime, the senate bill is virtually the same as the measure passed by the house last spring.

The measure now goes back to the house for concurrence. Proponents of the senate amendment expected it to pass.

It was reported on good authority today that President Coolidge plans to sign the measure despite the defeat of an amendment he recommended, which would strike out the so-called time clause. This provision restricted the 15 ships shall be built within the next three years.

Passage of the bill by such a large majority was a victory for the "big navy" faction in the senate, which has been frustrated since last spring in repeated attempts to get action on the long pending authorization.

Opponents of the naval program had content themselves with the amendment proposing negotiations to define "freedom of the seas" and treaties pledging the great nations to respect this freedom.

The station, located at Shattuck avenue and Prince street, was demolished by a brick "bombardment" yesterday.

A gas line was cut by an ax and the place was otherwise damaged. A note, slipped around a brick

The station would in no way interfere with the loading or unloading of ships at the dock according to officials of the Port company who discussed the plans last night.

Officials of the broadcasting company who asked that their names be withheld pending successful completion of the deal stated that

VON HUENEFELD DIES IN BERLIN

Berlin, Feb. 5.—(UP)—Baron Gunter von Huenefeld, who made the first east to west non-stop flight across the Atlantic ocean with two others, in the airplane Bremen, died here today.

Von Huenefeld's death came suddenly after an operation for stomach trouble. It had been announced that the operation was successful.

The baron had undergone two previous operations.

Von Huenefeld was leader of the Bremen flight from Berlin to Greenley Island, off the southern coast of Labrador in the Straits of Belle Isle. The flight ended in a forced landing April 13, 1925, on the German avian on enthusiasm and accomplished a transatlantic flight from Ireland to the ice-covered island and had no survivors for years.

Credit for the flight went to Capt. Herman Koehl and Commander James Fitzmaurice, the copilot of the Bremen, but it was von Huenefeld's determination that made it possible. He had put virtually all of his money in the project.

Later, having learned by pilot a plane himself, he abandoned his role of passenger and, with two companions, made a long and dangerous flight from Germany to Tokyo, via India.

His plane was damaged at Tokyo and he returned to Germany by train.

OUR NEW VICE PRESIDENT

Most Americans know something of the colorful and romantic career of our vice president-elect, Chas. Curtis, and of the many adventures he passed through during his youth. Some facts which are not generally known, however, are included in an interesting sketch of Senator Curtis in the current issue of the *National Republic*. It was written by Henry Olney under the caption "Our Indian Vice President."

"Once when he was riding in a race at Kansas City, the James boys—Jesse and Frank—the most notable bandits of that period, galloped up to the box office after the crowd had entered and at the point of a six shooter relieved the treasurer of the day's receipts," Mr. Olney says.

"By the time Curtis had reached the age of fifteen, he found himself too heavy to win races. He drifted back to Topeka where he had arrived five years before.

Shortly thereafter he saw a small band of Indians riding up the main street. As they drew nearer he was overjoyed to find they were some of his old friends from the Kaw village. The last time he had seen them was the night before he had started on that 60-mile walk across the plains for help. One of them was his old grandmother. It was a happy reunion and the wandering lad was invited to return to his old home and old life. He had wrapped himself in a blanket and was sound asleep in front of the campfire at the end of the first day's journey. He was awakened by a gentle hand on his forehead. His grandmother was on her knees at his side. She dearly loved that boy and her heart ached to have him with her during the remaining days of her life. But she was a woman of vision. She saw into the future. She wanted the boy to travel in the ways of the white man. She wanted him to be a great man. For an hour they talked together in the Kaw tongue. She told him it was the turning point of his life. In one direction lay a life of success and honor among his white brothers; in the other direction lay the life of a blanket Indian on a government reservation. The grandmother's advice was taken. She gave the lad her favorite pony that had been tied to a nearby tree. The boy rode out into the night.

"That Curtis boy has been steadily riding through all these years. Some of the riding has been pretty rough. But on March fourth he will ride into the Capitol of the United States of America and assume the duties of the vice president. Surely the loving and smiling spirit of that old grandmother will be hovering around him when he steps into this exalted position."

BOY SCOUTS

The Boy Scout Law says, "A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent." When taking the Scout Oath the 1,800,000 Boy Scouts throughout the world say in principle: "On my honor I will do my best to do my duty to God and my country, to obey the Scout law, to help other people at all times, and to keep myself physically strong, mentally awake and morally straight."

No wonder foreigners have trouble with the American language. In this country when you shingle a house you put something on, but when you shingle a woman's hair you take off something.

The one and only safe place for the speeder is the Sahara Desert where roads are just as wide as they are long.

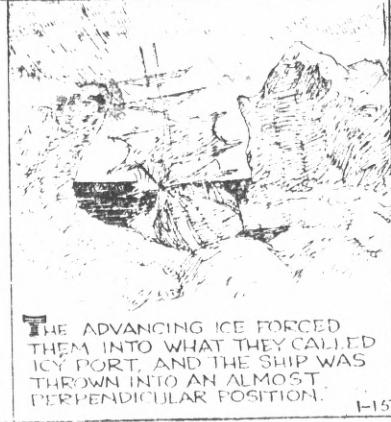

How can the office post live 40 years and never find out that matches are being given away at almost every corner drug store?

The great need today is a stenographer who will dream that she is awake and writing letters.

KEYES WEEPS ON WITNESS STAND

LOS ANGELES, Feb. 5.—(U.P.)—Asa Keyes wept like a child while attorney Al McDonald made a final plea to the jury to acquit the former district attorney of bribery conspiracy charges in superior court today.

"Do you think a man who has been straight for 25 years would stoop to feather his nest during the last few days of his public service?" McDonald asked, his voice choking with emotion.

He turned toward Keyes but the former county prosecutor was unable to meet his gaze.

Keyes, who is on trial with Ben Getzoff and Ed Rosenberg was visibly affected and made little effort to hide it.

Earlier in his plea McDonald charged that Jacob Berman, who turned state's evidence, and his brother Louis Berman, had "framed a trap for Keyes." He insisted that presentation of gifts to the former district attorney by the Bermans was intended to place Keyes in an embarrassing position.

"This story of Jacob Berman on the witness stand was built around the diary of Milton Pike so that Berman could get the goods on somebody," McDonald charged.

Trap Charged
"I further believe, and I believe the testimony sustains my theory, that Louis Berman, at the instigation of Jacob Berman, framed a trap for Keyes," he summed up.

The defense attorney referred to the diary that Pike kept in the Getzoff tailor shop which the state used as the basis of charges against Keyes and others.

He further contended that Jacob Berman "traded his soul and honor" for dismissal in the Julian Petroleum corporation conspiracy trial.

During the present trial Berman testified that he paid \$10,000 to buy acquittal in the case.

Low Exports Raises Taxes In Bermuda

HAMILTON, Bermuda, Feb. 6.—UP—Decrease in the export trade of Bermuda, which includes onions, potatoes and celery, chiefly shipped to the New York market, has caused much concern and the Colonial Parliament now in session is planning adoption of the income tax to meet expenses for running the government during the next fiscal year.

This latter game will be played Feb. 16 during the Y. M. D. northern California conference. A number of members of the Richmond organization are planning to attend the sessions which will be held in Modesto.

VICTOR SHOWS CLASS IN BATTLE

LOS ANGELES, Feb. 5.—UP—Tommy Loughran the Philadelphia light heavyweight champion won a ten round decision from Armond Emanuel of San Francisco before more than 10,000 fans who packed the Olympic auditorium here tonight.

Loughran, the master boxer, speared Emanuel with a fancy assortment of lefts and rights to win a decision victory and earn the right to meet Paulino Uzcudun or practically a chance at the winner of the Sharkey-Stribling bout.

Both fighters were over the light heavyweight limit so the title was not involved.

The Philadelphia was the aggressor throughout and he consistently beat Emanuel with a stinging left to the jaw and body. His years of ring experience earned him the victory and in the late rounds he had the Jewish brawler missing frequently.

Loughran took the first two rounds by a shade but the San Francisco boy came back in the third and connected several times with rights to the head, and found the same target with a straight left.

The fourth was even but Loughran captured the fifth and sixth with comparative ease. Loughran stayed in the center of the ring and made Emanuel circle him.

Late in the sixth round Emanuel caught Loughran off balance and floored him but it was more of a slip than a knockdown.

The light heavyweight took the seventh eighth and ninth rounds and they finished fast in the tenth.

GRAY FOG BEATS CARD CAGERS

PALO ALTO, Feb. 5.—UP—The St. Ignace basketball team considered by many as the best on the Pacific coast met strong competition from Stanford university here tonight but finally won, 30 to 23.

The visitors had been leading at the end of the first half 18 to 9, and Don Tyler, had been the only Stanford player able to score but a rally in the final minutes of the game changed the score from 30 to 16 to the last total. Tyler made 12 points and Paul Maloney of the visitors made 11.

COMMUNITY 5 WINS CLOSE CONTEST

In one of the most exciting games witnessed at the local Y. M. C. A. gymnasium the Community Methodist church cagers defeated the First Presbyterians by a score of 21 to 12 last night.

Redfield made seven points for his squad while Squires made 11 points for the losers.

In a preliminary game the Grace Lutherans walked over the Wesley Methodist team 40 to 23. Gillian and Santella made 15 points each for the winners and Black made 10 points for the losers.

The lineups were as follows:

FIRST GAME

GRACE LUTHERANS (40) Gillian 15, Santella 15, forwards; Johnson 4, center; Baldwin 6, Thelste guards.

WESLEY METHODISTS (23) Melin 6, Jewell 2, forwards; Black 10, center; Drexel 7, Lohr, Jenkins guards.

SECOND GAME

COMMUNITY M. E. (21) Boschetti 4, Hillier 6, forwards; Redfield 7, center; Johnson 2, Roberts 2, Kowes guards.

FIRST PRESBYTERIANS (20) Spies 11, L. Bowen 3, forwards; Buchan, center; Goldworthy, Osborne 1, C. Bowen 5, guards.

REVOLT DENIED BY SPANISH DICTATOR

MADRID, Feb. 5.—(UP)—Primo de Rivera, premier-dictator of Spain, denied tonight all reports of fighting or serious military uprising in Spain and described briefly the present situation resulting from two abortive outbreaks at the Ciudad Real and Valencia garrisons within the last week.

"Not a single shot has been fired," Primo de Rivera told the United Press correspondent, "either by the rebels or the loyal forces; and I may say that all troops are loyal with the exception of the few artillery chiefs and officers who ordered their men out. At Ciudad Real and Valencia the soldiers, always obedient to orders, obeyed until they realized such orders were subversive."

"It is only against these officers who are now rejected and despised by the country, that we will proceed with rigor."

To Try Ex-Minister

The failure of Sanchez Guerra (former prime minister arrested as leader of the nation wide plan for revolt) has been notorious, but as the captain general of Valencia, Castro Cirona, did not act diligently and arrest him, we have dismissed Cirona and will bring him to trial," the premier continued.

"The army, navy, civil guard, carabinieri and police have not for one moment left the side of the government. Malignant elements do not amount to more than one thousand in the whole country, in addition to a few conspiring politicians."

"This is the whole truth of the situation in Spain. All the rest has been dreamed by those who are spreading reports."

Navy Revolt Denied

Meanwhile, General Sanjurjo, who went to Valencia to put down the uprising there, was en route to Madrid to report to the government, and rumors that there had been an outbreak of mutiny on the naval vessel Don Jaime were officially denied. The entire country, including Valencia, was reported calm.

Sanchez Guerra, whose plot for revolt was said to have been framed in France where he said he had won the support of 18 artillery regiments of Spain, and

his son, were on a warship near Valencia. It was believed in some quarters they would be sent as prisoners to the Balearic islands.

Arrests of military men in the Valencia area totaled eleven tonight, including several minor officials and leaders. Many civilians were held in addition. About 40 persons are under arrest at Ciudad Real.

DE RIVERA WEAK, FRENCH DECLARE

PARIS, Feb. 5.—(UP)—Comment on the suppression of the Spanish revolt indicated tonight that Paris newspapers believed the position of Primo de Rivera was still none too strong and that there was considerable danger he would suffer great loss of prestige if not his power.

Most of the information available here is based on unconfirmed reports coming from border cities, but it served to emphasize the doubts of discontent in Spain and the danger of a new and powerful uprising, which the iron-handed methods of the premier might not be able to cope with.

Hi-Y Club To Initiate New Members Soon

Initiation of new members will be held by the Hi-Y club of the Richmond Y. M. C. A. Feb. 19 and March 5, according to a decision reached last night at a meeting of the organization.

The members separated into two groups with Edward Phillips, former Hi-Y president, in charge of one group and Reynold Carlson, secretary of the Y. M. C. A. in charge of the other. "Friendship" was the topic for discussion.

Thirty members have already signed for the "beater party" to be held in Oakland March 15. The committee in charge of the vaudeville show to be presented March 22 reported that plans were progressing.

OIL SCANDAL IN RUSSIA STIRS NATION

MOSCOW, Feb. 5.—UP—The Soviet Union has its own little "Teapot Dome."

Fourteen persons, seven of them members of the Communist party, will soon be tried in Bakur for paying out about half a million rubles from government funds for the use of oil lands, which belonged to the government.

Under the law here, peasants upon whose land oil is discovered are compensated for the land which is confiscated by the government. It appears that in the Bakur district, the richest Soviet petroleum field, fake "discoveries" of oil were arranged and fake "peasants" were compensated for land taken from them.

Through the connivance of members of the Bakur Soviet, it is charged, oil properties on some of which there were actually live pits, were distributed to peasants who represented former owners of those properties. The land was plowed and a pretense made of other farming activity. Then officials of the oil trust "discovered" the oil and arranged to pay the farmers for the land confiscated.

These payments according to the prosecutor, were shared by former owners and by grafting officials. The scheme was worked for at least three years.

Recently the Soviet authorities brought to light other illegal land sales. Theoretically all land belongs to the government and is used by farmers on a lifelong lease. The farmer is not allowed to sell it, and can sublet it only under special conditions. In practice, however, the peasants often find methods for circumventing the law. Numerous instances in which land was bought and sold like ordinary private property were cited in a speech by Y. N. Brandenburgsky of the Commissariat of Justice. On several occasions village Soviets themselves seem to have been guilty of such trade.

Two-Headed Snake Thrives In Zoo

ST. PAUL, Feb. 5.—UP—A two headed king snake, found near Roma, Ill. by Tommy O'Hara, 9 year old schoolboy, is thriving in the St. Louis zoo.

The snake's only difficulty, according to R. Marlin Perkins, superintendent of the reptile house at the zoo, is the fact that the two heads sometimes have different impulses. "When one head wants to travel," says Perkins, "the other feels like napping. Therefore the snake can't travel very fast."

"The left head is the best eater but the right seems to be more assertive."

Aides For Vet Head Named At Meeting Here

L. R. Holt and H. E. Hunt were last night appointed aides to assist George Imbach, commander of Honor post Veterans of Foreign Wars, on the Disaster Relief committee. Plans for Mobilization day to be held Saturday were discussed by the members at a meeting held in Memorial hall.

The committee in charge of arrangements for the Valentine dance to be held Feb. 21 reported that plans have been completed. The committee is composed of George Ford, Ed Summers, Ray Sny and George Imbach. The event will be held in Memorial hall.

S. S. Ripley was appointed to represent the order on the Livermore Veterans hospital general committee. He will attend a dinner to be held in the Hotel Carquinez Tuesday night when preliminary plans for entertaining the veterans will be discussed.

A class initiation was held and was followed by a banquet in charge of George Ford.

HAWKS BREAKS L. A. TO N. Y. AIR MARK

Continued from Page 1)

minutes, 59 seconds, or 36 minutes and one second better than the previous record of 18 hours 58 minutes held by Art Goebel. Lieut. Oakley Kelly and John Macready, army fliers, were the first to fly without stop across the continent, their time from New York to Santiago, was 26 hours 50 minutes, 26 seconds in a flight made May 2 and 3, 1923. From then until Goebel's flight of last summer in which he was accompanied by the late Harry Tucker, no one has succeeded in flying from ocean to ocean without stop. Kelly and Macready flew from east to west. The other two flights were from west to east.

All Day Wait
About 100 people were at Roosevelt field when Hawks and Grubb landed. They had been waiting since morning, and some because the plane had not been sighted since it circled Richmond, West Virginia at 11:17 a. m., began to fear it had failed.

Mrs. Edith Eowle Hawks ran out to greet her husband, embracing him as he stepped from the plane. Hawks arrived in fine physical condition although tired from his all night flight, but Grubb who had been affected by fumes from the motor—was weak, and staggered as he left the machine.

Hampered By Weather
"If I had gotten any sort of a break from the weather," Hawks said, "we'd have made the flight in 16 hours. The plane can do it."

"We ran into bad weather at Roswell, N. M. and from that time we were hardly ever out of the clouds. We went up above the clouds, after finding rain under them, and for nearly 12 hours we were flying that way. We could see the stars sometimes and sometimes they were hidden, so we flew blind."

"Our altitude varied from 8000 to as high as 11,000 feet as we went up and down to avoid the worst of the storms."

"Our Wasp motor hit perfectly throughout the trip. We kept it running at 1700 revolutions per minute, which gave a computed ground speed of 150 miles an hour. Sometimes the wind was on our tail and we made at one time as high as 190 miles an hour."

Cooling Aids
"The special motor cooling on the plane, I think was a big success in cutting down wind resistance, giving additional speed and reduced heating of the motor."

Hasty inspection showed the plane had burned about 400 gallons on the trip and had about 50 gallons of its total fuel load of 450 gallons, left on arrival. Hawks said he ate only one sandwich and drank only a little water on the flight.

Grubb, who never has been in the east before, forgot to bring his overcoat and he shivered in the breeze at Roosevelt field as soon as he removed his leather flying suit. He soon recovered from nausea and unsteadiness caused by the motor fumes and was eager to get about the business of seeing the sights of New York.

RICHMOND MAY HAVE RADIO STATION

Continued from Page 1)

The conditions for broadcasting at the outer harbor docks are ideal, and without interference of any kind. Under the plans the highest powered station for which the government will issue a permit will be established. This would involve an expenditure of more than \$50,000.

It is planned to tie up the station with a national broadcasting chain and also present local programs which would be on a par with any presented in the nation today.

Publicity for City

The station would offer Richmond one of the best means of publicity which can be obtained. The law which provides that a station's letters and location must be announced every 15 minutes alone would be of tremendous publicity value. In addition it would provide an added revenue to the ever growing payroll of the city.

Officials of the Parr company announced last night that prospects look favorable at the present time for the completion of the plans for the station here. The only possible hindrance seen was a government permit which must be obtained before a station can operate.

None In County

It was however pointed out that not a single broadcasting station is located in this county at the present time. The government board has been reluctant in the past to grant permits for new stations where a large number exist at the present time.

Final negotiations for the station will be completed within the next few days from present indications, officials of the Parr company stated last night.

Beware of COLDS NOW!

whether you've had the FLU... or not

This is the time of year when serious cold troubles, such as deep chest colds, bronchitis, and pneumonia are always at their worst.

Just now, with so many people in the weakened condition that follows a flu attack, it is more important than ever to heed every cold as a danger signal, and check it promptly before complications can set in.

Quick Direct Treatment
At the first sign of a cold, melt some Vicks' in a bowl of hot water and inhale its healing vapors. Also place some up each nostril and snuff well back. This quickly opens the air passages.

At bedtime, rub Vicks vigorously over throat and chest and cover with a warm flannel. Most colds yield overnight to Vicks two-fold action:

Acts 2 Ways at Once

(1) Its medicated vapors, released by the warmth of the body, are inhaled direct to the inflamed air passages, loosening the phlegm and easing the difficult breathing.

(2) At the same time, Vicks acts through the skin like a poultice, "drawing out" tightness and soreness, and thus helping the vapors to break up the congestion.

Mothers especially appreciate this simple external treatment because it cannot upset children's delicate stomachs, as too much "dosing" is so apt to do.
